Pre-Glued Lash Starter Kit (Lola's Lashes)

Lola's Lashes · £33 (€44 in the EU)

Avoid

54/100 · Medium confidence

Nobody else sells this exact kit, so the map is green. But the category is full: big brands in every chain, 28+ advertisers and Amazon kits with thousands of reviews.

DEMAND (2 YEARS)
Rising
+94% Google searches vs the year before. Amazon: 10,550+ bought last month

SAME PRODUCT IN SHOPS
Only the brand itself
Every exact match is Lola's own kit, sold by the brand or its stockists (Superdrug, Boozyshop, Amazon). Rival kits look different but are everywhere.

Red = in a big chain. Amber = a cheaper copy that shoppers will find or trust. Light green = copies exist but are hidden, weak or about the same price. Green = nobody else found. Grey = not checked.

Best region: None. The map is green only because no one copies Lola's design; rival pre-glued kits are in big chains in all six countries.

PICTURE CHECK **IDENTICAL** **Every exact match was Lola's own kit, sold by the brand or its stockists, including Lola's on Amazon UK at £20. No other seller makes this design.**

Pre-Glued Lash Starter Kit (Lola's Lashes)

Lola's Lashes kit on Amazon UK (£20)

WHY AVOID

- Ardell, KISS imPRESS and GLAM pre-glued clusters sit in Target, Walmart, Kmart, Priceline and Chemist Warehouse from about US$12
- At least 28 brands advertise "pre-glued lashes"; Lola's alone runs 147 of 250 ads and has advertised since February
- Amazon is heavy: 10,550+ bought last month in the US, and the top listing in Canada has 25,100 reviews

BIGGEST RISK

You would need your own lash brand, safety paperwork and creative good enough to beat established beauty brands on cost per sale.

WHAT TO DO NEXT

- Skip this as a product test. If beauty appeals, look for a lash-care add-on (remover, storage, aftercare) with fewer advertisers

OLDEST AD STILL RUNNING, BRAND BY BRAND (MONTH/YEAR)

A sample, not the whole market: the first 250 live ads. Facebook has more, so every number here is a minimum.

Each brand is counted once, in the month its oldest still-running ad began. Facebook only shows ads that are still running and brands replace them often, so a brand can be far older than its bar. The shop ages in the table below are the better guide to who is new.

No supplier listing turned up for this exact object in the photo search. Most products sold this way do have one, so look before you decide: search AliExpress by name, or use its search-by-picture with the brand's photo. No-Rinse Foam Paw Cleanser (Dandylion)

Dandylion · CA$20

Avoid

52/100 · Medium confidence

Dandylion is an established brand already in Target, Chewy and Petco, and the same foam-and-brush bottle sells from about US$6 under dozens of names. Too cheap and too crowded for a newcomer.

COUNTRY		WHAT WE FOUND	BRAND VS CHEAPEST COPY
United States	Amber	amazon.com at $13.95: Amazon result 2 for the product words, with 1,100 reviews and 400+ bought in past month. 9 other copies	US$15 vs US$6
United Kingdom	Amber	Pets at Home at £10.00: Google Shopping result 1 for the product words, with 163 reviews. 12 other copies	£11 vs £5
Germany	Amber	amazon.de at €12.61: Amazon result 1 for the product words, with 1,600 reviews and 100+ bought in past month. 12 other copies	€13 vs €10
New Zealand	Amber	amazon.com.au at $24.99: Amazon result 5 for the product words, with 1,200 reviews. 5 other copies	NZ$25 vs NZ$13
Australia	Red	The same object is sold by BIG W at $12.05	A$22 vs A$10

Red = in a big chain. Amber = a cheaper copy that shoppers will find or trust. Light green = copies exist but are hidden, weak or about the same price. Green = nobody else found. Grey = not checked.

Best region: None. Every country checked has cheap look-alikes with hundreds or thousands of reviews.

PICTURE CHECK **IDENTICAL** **Photo matches were Dandylion's own bottle at its stockists; look-alikes from other brands use the same foam-and-brush bottle.**

No-Rinse Foam Paw Cleanser (Dandylion)

Dandylion's own bottle at Target

WHY AVOID

- The same foam-and-brush bottle is in the top results everywhere: Amazon US result 2 at US$13.95 with 1,100 reviews
- 38 brands advertise "paw cleaner" and 32 of them started in the last two months: a swarm
- At about CA$20 a bottle, there is little room to pay for ads against Wet Ones, Bugalugs and Pets at Home's own range

BIGGEST RISK

A low-priced liquid: shipping and ad costs eat most of the margin unless customers reorder.

WHAT TO DO NEXT

- Skip it. If pet care appeals, look for a higher-priced pet product with fewer sellers

Who is advertising it on Facebook and Instagram right now? Live ads using the words “paw cleaner”, from Facebook's own ad library, 2026-10-11.

A swarm, right now

It's a swarm: 38 brands, 32 of them new in the last two months, several from shops opened this year. The phrase also catches paw-washing cups, but the pattern is clear: many sellers piling in, and Dandylion is not among the top advertisers.

OLDEST AD STILL RUNNING, BRAND BY BRAND (MONTH/YEAR)

Each brand is counted once, in the month its oldest still-running ad began. Facebook only shows ads that are still running and brands replace them often, so a brand can be far older than its bar. The shop ages in the table below are the better guide to who is new.

What it costs to buy. The shops map shows who you would compete with; this page shows whether you can get the product, and what is left after you pay for it.

The photo search did not turn up a supplier listing for this exact object. That does not prove there isn't one: search AliExpress for it by name or picture before you decide.

No supplier listing turned up for this exact object in the photo search. Most products sold this way do have one, so look before you decide: search AliExpress by name, or use its search-by-picture with the brand's photo. If you truly cannot find it, it may be custom-made, and a sourcing agent is the next step.

BEFORE YOU ORDER, ASK THE SUPPLIER

- What is the total cost delivered to my customer's country, per unit?
- How many days from order to the customer's door?
- Can you send one sample first, and do you have the safety paperwork this product needs?

Avoid

50/100 · Medium confidence

ISOFIX Dog Car Seat (Wagging Rights)

Kmart Australia (A$55)

WHY AVOID

- Kmart and BIG W sell the same seat design at A$55; The Warehouse and Harvey Norman stock it too
- 70+ brands advertise "dog car seat", led by Temu (about 100 ads) and FunnyFuzzy
- The XL is 100 cm long: big parcels make shipping and returns expensive

BIGGEST RISK

A bulky item at £140+ invites returns, and the shop's claimed 25,000 sales and 1,318 reviews predate the 3-month-old store.

WHAT TO DO NEXT

- Skip it. If pet travel appeals, look for a small, light accessory instead

OLDEST AD STILL RUNNING, BRAND BY BRAND (MONTH/YEAR)

A sample, not the whole market: the first 250 live ads. Facebook has more, so every number here is a minimum.

Each brand is counted once, in the month its oldest still-running ad began. Facebook only shows ads that are still running and brands replace them often, so a brand can be far older than its bar. The shop ages in the table below are the better guide to who is new.

What it costs to buy. The shops map shows who you would compete with; this page shows whether you can get the product, and what is left after you pay for it.

The photo search did not turn up a supplier listing for this exact object. That does not prove there isn't one: search AliExpress for it by name or picture before you decide.

No supplier listing turned up for this exact object in the photo search. Most products sold this way do have one, so look before you decide: search AliExpress by name, or use its search-by-picture with the brand's photo. If you truly cannot find it, it may be custom-made, and a sourcing agent is the next step.

Ayat al-Kursi Cuff Bracelet (Création Orientale)

Amazon UK (£8)

WHY AVOID

- The same cuff is Amazon's or Google Shopping's first result in 5 of 6 countries, from £1.99 in the UK
- AliExpress, DHgate and Alibaba sell it by the hundred, in every colour
- Searches for it are down 18% on the year before

BIGGEST RISK

At about €25, there is little room to pay for ads against copies selling for a tenth of the price.

WHAT TO DO NEXT

- Skip it. Faith jewellery can work, but only with a design no factory already sells

Ayat al-Kursi Cuff Bracelet (Création Orientale)

Who is advertising it on Facebook and Instagram right now? Live ads using the words “bracelet ayat al kursi”, from Facebook's own ad library, 2026-10-11.

Crowded

Quiet but scattered: 10 small shops advertise "bracelet ayat al kursi" in French, 6 of them new, and none dominates. Création Orientale itself is not among them, so the demand you see in the ads is not proof that this shop's cuff sells.

OLDEST AD STILL RUNNING, BRAND BY BRAND (MONTH/YEAR)

Each brand is counted once, in the month its oldest still-running ad began. Facebook only shows ads that are still running and brands replace them often, so a brand can be far older than its bar. The shop ages in the table below are the better guide to who is new.
