THE VERDICT

Climber's Finger Trainer (GripX Pro)

Test now

One brand has made this pay with ads for ten months. Copies exist from A\$18, but a shopper searching Amazon or Google does not find them: none is in the top results and the best has 14 reviews. Not unique, so win on audience, not on product.

HOW TO READ THIS

Demand

Are more people searching for it than a year ago (last 2 years only), and is Amazon selling units? Green = rising.

Same product in shops

A PHOTO search in each country, then a check of what a shopper finds by typing the product words. Red = in a big chain. Amber = a cheaper copy shoppers will find or trust. Light green = copies exist but are hidden or about the same price. Green = nobody else.

Amazon

Are there listings with thousands of reviews? Green = not yet.

Advertisers

How many brands run Facebook ads for it today, and when did they start? One brand for months = proof. Dozens in the last few weeks = a swarm.

Cost to buy

What a supplier such as AliExpress charges for it, and what that leaves you per sale. Green = 70% or more left.

#	Product	Verdict	Score	Demand	In shops	Amazon	Ads	Cost to buy
1	 Climber's Finger Trainer (GripX Pro) Go Crimp · US\$59 (kit US\$119) One brand has made this pay with ads for ten months.	Test now	62					

Verdicts: **Test now** worth a small paid test now **Backlog** interesting, but only with a twist **Avoid** don't. Scores are out of 100.

Checked on 2026-09-21. Markets move fast, so check again before you spend money. Keep in mind: Product costs are estimates; Ad counts only include ads that use the exact product words; Green on a map means we found nobody else selling it there, not that nobody does.

+14% Google searches on the year before. A steady niche.

SAME PRODUCT IN SHOPS

Found by picture: the same object. 0 red, 0 amber, 2 light green, 0 green.

AMAZON

Copies from A\$18

The same device is on Amazon in every country checked.

ADVERTISERS

8 brands

One brand owns it. 8 brands, but gocrimp.com runs 118 of the 126 ads.

COST TO BUY

4 supplier listings

Suppliers list it. Open a listing to read today's price.

	COUNTRY	WHAT WE FOUND		BRAND VS CHEAPEST COPY
	Australia	Light green	5 copies, all hard to find. Cheapest: Amazon.com.au at A\$18 (not in the top results, 14 reviews)	A\$88 vs A\$18
	United States	Light green	5 copies, all hard to find. Cheapest: AliExpress (slow delivery from overseas)	

Red = in a big chain. Amber = a cheaper copy that shoppers will find or trust. Light green = copies exist but are hidden, weak or about the same price. Green = nobody else found. Grey = not checked.

Best region: Both are light green: copies exist but shoppers do not find them.

Proof the price gap is survivable: Go Crimp has kept ads running for 10 months at US\$59 while copies sell for less than half that in 1 of 2 countries. Shoppers are paying the gap, so a cheaper copy existing has not stopped this product selling.

PICTURE CHECK IDENTICAL The same pistol-grip device at a fifth of the price.

Climber's Finger Trainer (GripX Pro)

Hand Strength Trainer (Amazon Australia, A\$18)

WHY TEST NOW

- Go Crimp has kept ads live since November 2025 and now runs most of the live ads for it. Nobody pays that long for ads that lose money
- The copies are hidden: in both countries none shows up when a shopper types the product words into Amazon or Google, and the best-known one has 14 reviews
- A supplier clearly exists (the same device retails at A\$18), so the margin at US\$59 is large

BIGGEST RISK

The copies are hidden today, not gone. If the product takes off they will surface, and Go Crimp already owns the climbers.

WHAT TO DO NEXT

- Start in the US or Australia
- Take it to an audience Go Crimp ignores: guitarists, golfers or hand rehab. 3 short ads, US\$20 a day for 5 days

Who is advertising it on Facebook and Instagram right now? Live ads using the words "finger trainer", from Facebook's own ad library, 2026-09-20.

Go Crimp owns this. 95 of the 127 live ads are theirs, and the 'other' advertisers all link to gocrimp.com, so they are Go Crimp's own creator pages. Their oldest live ad is from November 2025: ten months of proof that the ads pay.

OLDEST AD STILL RUNNING, BRAND BY BRAND (MONTH/YEAR)

Each brand is counted once, in the month its oldest still-running ad began. Facebook only shows ads that are still running and brands replace them often, so a brand can be far older than its bar. The shop ages in the table below are the better guide to who is new.
